Subject 1: [Are uncommon EGFR mutations more common than you think? Listen now.]

Subject 2: [Listen now: Peer discussion on uncommon mutations in patients with metastatic non-small cell lung cancer]

Subject 3: [Stream the latest peer discussion on uncommon mutations in patients with metastatic non-small cell lung cancer]

Preheader 1: [Learn more about uncommon mutations in patients with metastatic non-small cell lung cancer.]

Preheader 2: [Important conversation on uncommon mutations in patients with metastatic non-small cell lung cancer.]

Preheader 3: [Hear peer perspectives on uncommon EGFR mutations]

A PÖEN PODCAST

EPISODE 3

ARE UNCOMMON EGFR
MUTATIONS MORE COMMON
THAN YOU THINK?
CONSIDERATIONS FOR
UNCOMMON EGFR
MUTATIONS IN PATIENTS
WITH METASTATIC NONSMALL CELL LUNG CANCER

LISTEN NOW

Looking for what to listen to next? Check out all the episodes on POCN Podcast:

EPISODE 1

CATCH UP WITH EPISODE 1

Join Victoria Sherry, DNP, CRNP, AOCNP, as she discusses treatment with tyrosine kinase inhibtors (TKIs), managing TKI-related adverse events, and atypical EGFR mutations.

EPISODE 2

CATCH UP WITH EPISODE 2

Listen to this peer discussion with Sarah Sagorsky, MPAS, PAC, and Dr. Christian Rolfo on the importance of biomarker testing in patients with advanced metastatic non-small cell lung cancer.

EPISODE 4 (Coming Soon)

NP/PA PERSPECTIVES IN MANAGING PATIENTS WITH METASTATIC EGFR M+ NSCLC

LISTEN NOW

POCN+ is the first and only peer-led educational streaming service dedicated to NPs and PAs. There's always something new to discover, including medical news, expert series, case studies, podcasts, and Clinician's Corner—all in one place.

POCN+ is accessible anytime, anywhere on most internet-connected devices, including your TV, mobile phone, tablet, and desktop computer.
